5th October 2017

Dear Mr. Sandhu,

Thank you from The Akshaya Patra Foundation UK

Thank you for your generous donation of £6,000.00 towards the Akshaya Patra Food For Education Programme which you pledged at the Asian Achievers Awards 2017 event. Your support means that we will be able to reach more children – providing them with a nutritious meal, access to education and the opportunity to build a brighter future. I have enclosed a receipt for your records.

Every day millions of parents across India are faced with a decision no one should have to make: feed the family or send their child to school. When malnutrition is rife and starvation is a real possibility, education is not seen as a priority.

However, like you we believe that these families can only lift themselves out of poverty through education. For every £10 donated, one child will receive a hot, nourishing school lunch every day for an entire year, encouraging them to attend school and providing the energy needed to concentrate on their studies. With the benefit of an education, the 600 children, that your gift will enable us to support may one day realise their dreams of becoming a doctor, an engineer or a teacher. They are India's future.

By sharing our vision of a world where no child should be denied an education because of hunger, you are helping us to feed 1.6 million of India's most deprived children. On their behalf and from all of us at Akshaya Patra, thank you.

Best wishes,

Petra
